# B E D S A T E L I E R

Create your dream bed according to your own individual needs, and our production masters with many years of production experience will make it in 6-8 weeks!

We have basic collection of bed models that we can adjust according to your individual needs, such as heightening, widening or lowering the headboard, adapting the bed frame to your non-standard mattress or select higher legs so that the robot vacuum cleaner can carry out daily cleaning tasks without risk..

In the assortment of bed legs, we have wooden legs of three different designs, which can be painted in three colors. Also we have two types of black metal legs. More detailed information can be found at the back of the catalogue.

Our single, handmade beds come with padded bed frames. Most of the beds also have pull-down tapestry headboards.

The beds are manufactured only in Lithuania and are provided with a 2-year warranty.

In our assortment, we have over 30 different types of tapestries, which have OEKO-TEX STANDART certificates, which are generally recognized as corresponding international ecological standards. For those who appreciate natural materials, the tapestry collection includes fabrics with dominating natural fibers: wool, cotton, linen or viscose. In total, the tapestry collection has more than 600 colors and shades, so you can easily match it with your individual interior.

Also, if necessary, we can upholster the bed with a tapestry delivered by you.

## NEW OPPORTUNITY!

From now on in our salons you can get a sample of the tapestry color you like or even several to take away for free. This will facilitate color matching issues in your interior and family.

## AND THAT'S NOT ALL!

For those who like qualitative changes, we can make 2 or more sets of tapestries at once that can be pulled down, which you can change according to the season, mood or interior.

DecoFlux Home beds can be with or without a bedding box. During your visit in our showrooms, you will be able to see the bedding boxes with removable bottoms, which facilitate the process of cleaning the floor under the bed. You will also be able to look over and test the bed lattice and bed lifting mechanisms.

In our salons, you will also have the opportunity to choose mattresses and mattress toppers, which we will deliver together with the bed of your dreams. Currently we have five mattresses of different heights and softness.

At the same time, you will be able to match the bedspread, pillows, bedding or even sleepwear.

EVENTO  
—...  
beds atelier

Double bed EVENTO is the embodiment of delicacy. Clean lines, minimalistic design, slightly inclined headboard - a charming combination of comfort and pure design. The fully removable tapestry provides an opportunity not only to maintain impeccable cleanliness, but also to replace it with another tapestry when aesthetic needs change. This bed can also be a single one, which is perfect for the rooms of children and teenagers.

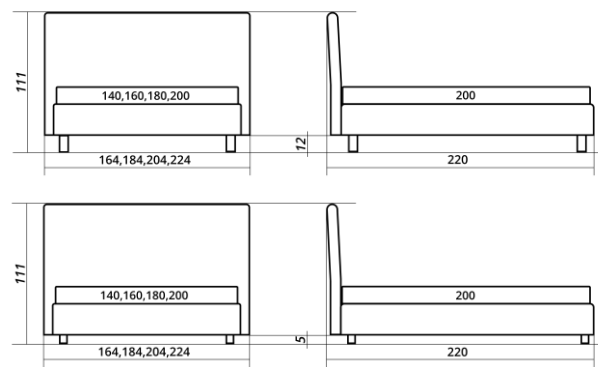

- Padded tapestry of bed frame.
- A spacious bedding box with an opening bottom is available.

- Easy care - bed frame and headboard covers are simply and easily removable.

## EVENTO

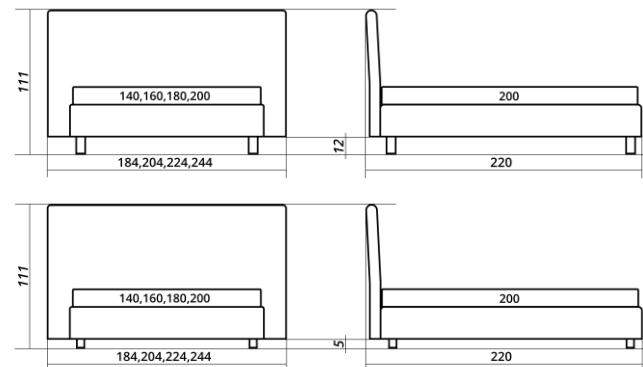

- Dense orthopedic lattice with silicone fastening elements.
- Metal frame and pneumatic high quality lattice lifters made in Germany.

- Right angled corners of the headboard with a padded edging.

## EVENTO 20

DUETO

beds atelier
