About

DecoFlux down and feather products are produced in Switzerland and our strict quality controls are always according to Swiss criteria.

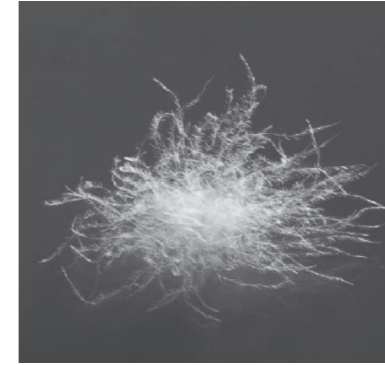

These products are a reflection of a positive attitude to life, well-being and enjoyment. Even pictures and words are not able to adequately describe our selected filling materials and the finest cover fabrics.

High quality duvets and pillows have a decisive influence on the quality of your sleep.

Sleep as on the clouds!

Healthy and restful sleep depends on many factors: the right duvet plays an important role as it provides the climate and moisture regulation at night. The range of products offers the right solution for every type of sleep: easy-care fibre, natural sheep wool or a cosy down. Selected covers support the functional properties of your duvet and give your skin a pleasant feel to the touch.

Large cluster down The volume of the down is of greater importance than the fill content itself. Large cluster down has better insulating properties, regulates moisture better and creates a continuous balance between warm and cool, between humid and dry. That is what gives you that incomparable snuggle-down feeling. Large clusters also have greater fill power which means that the duvet needs less filling and is thus lighter and cosier.

Pillows

DecoFlux has a selection of cuddly down pillows and feather pillows. Indulge yourself with the soft and gentle support that will relieve the stress in your neck and allow you to relax and recover after a good night's sleep.

- Careful testing and choosing of our raw materials.
- Constant evaluation and testing of quality and purity of our raw materials in our inhouse-lab.

Artwork by hand and our long experience guarantee beddings with a long life.

Quality

Over 90 years of experience and significant know-how are your guarantee that you buy the best of the best. We obtain our raw materials only from selected suppliers in Europe. The down and feathers come from well-fed, adult animals. That explains why they are especially soft and fluffy – carefully selected natural products for a healthy and restful night's sleep.

Our Swiss Made label guarantees that our down and feather products are completely produced in Switzerland with the highest quality controls.

Our Swiss Wash label guarantees that the down and feathers are washed carefully according to the most stringent hygiene regulations in Switzerland, which also means that we only use the best raw material and select it carefully in our own company.

Member of the Swiss Association of bedding manufacturers (also EDFA and IDFB). The declarations of our fillings meet the Swiss bed feather and down standards issued by the association. The down quality used for our duvets is classified according to European and Swiss standards. Our own in-house sorting machines guarantee that our fillings are of a consistently high quality.

The covers of all our products are manufactured according to the strictest "OEKO-TEX® Standard 100" criteria. We guarantee to fulfil the requirements for Class I (textiles suitable for babies). For further information, please see www.oeko-tex.com.

Our down-proof fabric is so finely woven that mites cannot get in. Down duvets and feather pillows are also recommended for those with a house dust allergy.

The covers of all our products are manufactured according to the strictest "OEKO-TEX® Standard 100" criteria. We guarantee to fulfil the requirements for Class I (textiles suitable for babies).
